ABER INSTRUMENTS LTD REACH COMPLIANCE STATEMENT

25th July 2012

“REACH is the European Community Regulation on chemicals and their safe use (**EC 1907/2006**). It deals with the Registration, Evaluation, Authorisation and Restriction of Chemical substances. The law entered into force on 1st June 2007.

The aim of REACH is to improve the protection of Human Health and the Environment through the better and earlier identification of the intrinsic properties of chemical substances. At the same time, REACH aims to enhance innovation and competitiveness of the EU chemicals industry. The benefits of the REACH system will come gradually, as more and more substances are phased into REACH.”

Aber Instruments Ltd meets all applicable REACH requirements and is committed to provide our customers with information about substances in its products as required.

Aber Instruments Ltd products as listed below, are exclusively made from components and materials that suppliers have declared free (defined by REACH as being less than 0.1% by weight) of substances of very high concern (SVHCs) as defined in the REACH current list of SVHCs at the time of writing of this certificate.

Aber Instruments Ltd assures its customers that our products are in full compliance of the EU REACH requirement.
